

Mercury General Profit Sharing Plan

Invest in your retirement—and yourself—today, with help from the Mercury 401(k) Plan and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

Dear Employee:

It's a pleasure to let you know that you will be enrolled in the Mercury 401(k) Plan. Take a look and see what a difference the plan could make in achieving your goals.

Any employee 18 years of age or older becomes eligible to participate in the Mercury General Corporation Profit Sharing Plan on the 1st day of the month following 60 days of hire. Once eligible, you will be automatically enrolled in Mercury 401(k) Plan at a contribution rate of 6% of your pretax eligible earnings and your contributions will be invested in a SSgA Target Retirement Non-Lending Series Fund Class D, based on your date of birth, and the assumption that you will retire at age 65. You will also be enrolled in the Automatic Increase Program, which will increase the amount you defer by 1% on an annual basis. We encourage you to take an active role in the Mercury 401(k) Plan and choose a contribution rate and investment options that are appropriate to you. If you do not wish to contribute to the Mercury 401(k) Plan, you must change your contribution rate to 0% within the first 60 calendar days of your eligibility.

Benefit from:

Convenience. Your contributions are automatically deducted regularly from your paycheck.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any pretax earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Portability. You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio. Your plan offers you the option of having experienced professionals manage your account for you.

Automatic annual increases. Save a little more each year, the easy way — the Annual Increase Program automatically increases your contribution each year.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional "catch-up" contribution of \$6,500 in 2020.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Participate in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

Any employee 18 years of age or older becomes eligible to participate in the Mercury General Corporation Profit Sharing Plan on the 1st day of the month following 60 days of hire. Once eligible, you are automatically enrolled in the Plan.

If you have not enrolled in the Plan within 60 days from your date of hire, you will be automatically enrolled in the Plan at a contribution rate of 6% of your pretax eligible earnings. Your contributions will be invested in the SSgA Target Retirement Non-Lending Series Fund Class D. However, we encourage you to take an active role in the Plan and to choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0% within the first 60 calendar days of your eligibility. You may change your contribution rate at any time by logging on to NetBenefits at www.netbenefits.com, or by calling a Fidelity Retirement Representative at 1-800-835-5095.

How do I enroll in the Plan?

Enroll online at any time, or by calling the Fidelity Retirement Benefits Center at 1-800-835-5095.

What is the Roth contribution option?

A Roth contribution to your retirement savings plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth contribution and after you have attained age

59½, or become disabled or die. Through automatic payroll deduction, you can contribute between 1% and 50% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the "Library" section of NetBenefits®.

How much can I contribute?

Through automatic payroll deduction, you may contribute up to 50% of your eligible pay on a pretax or Roth basis. In addition, you can automatically increase your retirement savings plan contributions each year through the Annual Increase Program.

What is the IRS contribution limit?

The IRS contribution limit for 2020 is \$19,500.

When is my enrollment effective?

Your enrollment becomes effective once you elect a deferral percentage, which initiates deduction of your contributions from your pay. These salary deductions will generally begin with your next pay period after we receive your enrollment information, or as soon as administratively possible.

Does the Employer contribute?

Each pay period, for every \$1 you contribute to the Plan, Mercury General Corporation will add an additional \$1 to your plan account, up to the first 1% of your pay and \$0.50 for each dollar you contribute from 2% to 6% of your pay.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations.

Fidelity's Online Beneficiaries Service offers a straightforward, convenient process that takes just minutes. To make your elections, click on the "Profile" link, then select "Beneficiaries" and follow the online instructions.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

What if I don't make an investment election?

We encourage you to take an active role in the Mercury 401(k) Plan and choose investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the SSgA Target Retirement Non-Lending Series Fund Class D with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of Mercury General Corporation.

If no date of birth or an invalid date of birth is on file at Fidelity, your contributions may be invested in the State Street Target Retirement Income Non-Lending Series Fund Class D. More information about the SSgA Target Retirement Non-Lending Series Fund Class D options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

What catch-up contribution can I make?

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum plan or IRS contribution, you may make an additional catch-up contribution each pay period. The maximum annual catch-up contribution is \$6,500. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments.

When am I vested?

You are always 100% vested in your contributions to Mercury 401(k) Plan, as well as any earnings on them. Mercury's matching contributions and any earnings vest according to the following schedule:

Years of Service	Percent
0-1	0%
1-2	0%
2+	100%

Can I take a loan from my account?

Although your plan account is intended for the future, you may borrow from your account for any reason.

Learn more about and/or request a loan online, or by calling the Fidelity Retirement Benefits Center at 1-800-835-5095.

Can I make withdrawals?

Withdrawals from the Plan are generally permitted when you terminate your employment, retire, reach age 59½, become permanently disabled, or have severe financial hardship as defined by your Plan.

The taxable portion of your withdrawal that is eligible for rollover into an individual retirement account (IRA) or another employer's retirement plan is subject to 20% mandatory

federal income tax withholding, unless it is rolled directly over to an IRA or another employer plan. (You may owe more or less when you file your income taxes.) If you are under age 59½, the taxable portion of your withdrawal is also subject to a 10% early withdrawal penalty, unless you qualify for an exception to this rule. To learn more about and/or to request a withdrawal, log on to Fidelity NetBenefits® at www.netbenefits.com or call 1-800-835-5095.

The plan document and current tax laws and regulations will govern in case of a discrepancy. Be sure you understand the tax consequences and your plan's rules for distributions before you initiate a distribution. You may want to consult your tax advisor about your situation.

When you leave the company, you can withdraw contributions and any associated earnings or, if your vested account balance is greater than \$5,000, you can leave contributions and any associated earnings in the Plan. After you leave the company, if your vested account balance is equal to or less than \$1,000, it will automatically be distributed to you.

However, if your vested account balance is greater than \$1,000 but not more than \$5,000, you will be notified that your entire vested account balance will be transferred to an Individual Retirement Account (Rollover IRA), unless you request either a cash distribution or a rollover distribution of your choice.

Can I move money from another retirement plan into my account in the Mercury 401(k) Plan?

Balances from eligible retirement savings plans – like a previous employer's 401(k) – may be rolled into your Mercury 401(k) Plan account.

Simply follow the instructions on the rollover form toward the back of this guide.

Be sure to consider all your available options and the applicable fees and features

of each before moving your retirement assets.

Where can I find information about exchanges and other plan features?

Learn about loans, exchanges, and more online. In particular, you can access loan modeling tools that illustrate the potential impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. Additional information can be obtained by calling the Fidelity Retirement Benefits Center at 1-800-835-5095.

Investment Options

Here is a list of investment options for the Mercury 401(k) Plan. For up-to-date performance information and other fund specifics, go to www.netbenefits.com.

Target Date Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Investment options to the left have potentially more inflation risk and less investment risk

Investment options to the right have potentially less inflation risk and more investment risk

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

The chart below lists the assigned fund the Mercury 401(k) Plan believes will best fit your diversification needs should you not select an investment option.

Your Birth Date*	Fund Name	Target Retirement Years
Before 1953	State Street Target Retirement Income Non-Lending Series Fund Class D	Retired before 2018

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 09/30/2020. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.

Investment Options

Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

American Beacon Small Cap Value Fund R6 Class

VRS Code: 867949

Fund Objective: The investment seeks long-term capital appreciation and current income.

Fund Strategy: Under normal circumstances, at least 80% of the fund's net assets (plus the amount of any borrowings for investment purposes) are invested in equity securities of small market capitalization U.S. companies. These companies have market capitalizations of \$5 billion or less at the time of investment. The fund's investments may include common stocks, real estate investment trusts ("REITs"), American Depositary Receipts ("ADRs") and U.S. dollar-denominated foreign stocks traded on U.S. exchanges (collectively, "stocks").

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

American Funds American Balanced Fund® Class R-6

VRS Code: 885042

Fund Objective: The investment seeks conservation of capital, current income and long-term growth of capital and income.

Fund Strategy: The fund uses a balanced approach to invest in a broad range of securities, including common stocks and investment-grade bonds. It also invests in securities issued and guaranteed by the U.S. government and by federal agencies and instrumentalities. In addition, the fund may invest a portion of its assets in common stocks, most of which have a history of paying dividends, bonds and other securities of issuers domiciled outside the United States.

Fund Risk: Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/25/1975, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

American Funds EuroPacific Growth Fund® Class R-6**VRS Code:** 885007**Fund Objective:** The investment seeks long-term growth of capital.

Fund Strategy: The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None**Who may want to invest:**

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/16/1984, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

ClearBridge Small Cap Growth Fund Class IS**VRS Code:** 826034**Fund Objective:** The investment seeks long-term growth of capital.

Fund Strategy: The fund normally invests at least 80% of its assets in equity securities of companies with small market capitalizations and related investments. The portfolio managers use a growth-oriented investment style that emphasizes small U.S. companies.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/04/2008. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/01/1998, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Dodge & Cox Stock Fund**VRS Code:** 894769**Fund Objective:** The investment seeks long-term growth of principal and income; a secondary objective is to achieve a reasonable current income.**Fund Strategy:** The fund invests primarily in a diversified portfolio of equity securities. It will invest at least 80% of its total assets in equity securities, including common stocks, depositary receipts evidencing ownership of common stocks, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund may invest up to 20% of its total assets in U.S. dollar-denominated securities of non-U.S. issuers traded in the United States that are not in the S&P 500.**Fund Risk:** Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
-

Fidelity® Select Technology Portfolio**VRS Code:** 000064**Fund Objective:** Seeks capital appreciation.**Fund Strategy:** Investing primarily in companies which FMR believes have, or will develop, products, processes or services that will provide or will benefit significantly from technological advances and improvements. Normally investing at least 80% of assets in securities of companies principally engaged in these activities. Normally investing primarily in common stocks.**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. The technology industries can be significantly affected by obsolescence of existing technology, short product cycles, falling prices and profits, competition from new market entrants, and general economic conditions. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The fund may have additional volatility because of its narrow concentration in a specific industry. Non-diversified funds that focus on a relatively small number of stocks tend to be more volatile than diversified funds and the market as a whole.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is willing to accept the potentially lower diversification and higher risks associated with investing in a particular industry or sector.
- Someone who is seeking to complement his or her core holdings with investments concentrated in a particular sector or industry.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Lord Abnett Bond Debenture Fund Class R6

VRS Code: 858620

Fund Objective: The investment seeks high current income and the opportunity for capital appreciation to produce a high total return.

Fund Strategy: To pursue its objective, under normal conditions, the fund invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in bonds, debentures and other fixed income securities. It may invest a substantial portion of its net assets in high-yield securities (commonly referred to as "below investment grade" or "junk" bonds). The fund may invest up to 20% of its net assets in equity securities, including common stocks, preferred stocks, convertible preferred stocks, and similar instruments.

Fund Risk: The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone looking for a fund investing in a mix of bonds that range from conservative to high risk and who can tolerate the risks associated with fixed-income investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 06/30/2015. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/01/1971, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Metropolitan West Total Return Bond Fund Plan Class

VRS Code: 889080

Fund Objective: The investment seeks to maximize long-term total return.

Fund Strategy: The fund pursues its objective by investing, under normal circumstances, at least 80% of its net assets in investment grade fixed income securities or unrated securities determined by the Adviser to be of comparable quality. Up to 20% of the fund's net assets may be invested in securities rated below investment grade or unrated securities determined by the Adviser to be of comparable quality. The fund also invests at least 80% of its net assets plus borrowings for investment purposes in fixed income securities it regards as bonds.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/29/2011. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/31/1997, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

State Street Target Retirement 2020 Fund Class K**VRS Code:** 821345**Fund Objective:** The investment seeks capital growth and income over the long term.**Fund Strategy:** SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM") manages the Target Retirement 2020 Fund using a proprietary asset allocation strategy. The fund is a "fund of funds" that invests in a combination of mutual funds and ETFs sponsored by the Adviser or its affiliates ("underlying funds"). It is intended for investors expecting to retire around the year 2020 and who are likely to stop making new investments in the fund at that time.**Fund Risk:** The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

State Street Target Retirement Fund Class K

VRS Code: 821343

Fund Objective: The investment seeks current income and, secondarily, capital growth.

Fund Strategy: SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM") manages the Target Retirement Fund using a proprietary asset allocation strategy. The fund is a "fund of funds" that invests in a combination of mutual funds and ETFs sponsored by the Adviser or its affiliates ("underlying funds"). Its assets are allocated among underlying funds according to a target asset allocation strategy that emphasizes fixed income, but also includes a smaller allocation to equity and certain other asset classes.

Fund Risk: The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

T. Rowe Price Blue Chip Growth Fund I Class

VRS Code: 869806

Fund Objective: The investment seeks long-term capital growth; income is a secondary objective.

Fund Strategy: The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in the common stocks of large and medium-sized blue chip growth companies. It focuses on companies with leading market positions, seasoned management, and strong financial fundamentals. The fund may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 12/17/2015. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/30/1993, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

T. Rowe Price Mid-Cap Growth Fund I Class**VRS Code:** 869304**Fund Objective:** The investment seeks long-term capital appreciation.

Fund Strategy: The fund normally invests at least 80% of its net assets (including any borrowings for investment purposes) in a diversified portfolio of common stocks of mid-cap companies whose earnings T. Rowe Price expects to grow at a faster rate than the average company. The advisor defines mid-cap companies as those whose market capitalization falls within the range of either the S&P MidCap 400[®] Index or the Russell Midcap[®] Growth Index. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with the fund's objectives.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/28/2015. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/30/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
 - S&P MidCap 400 Index is a market capitalization-weighted index of 400 mid cap stocks of U.S. companies chosen for market size, liquidity, and industry group representation.
 - The Russell Midcap Growth Index is an unmanaged market capitalization-weighted index of medium-capitalization growth-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.
-

T. Rowe Price Mid-Cap Value Fund I Class**VRS Code:** 869007**Fund Objective:** The investment seeks to provide long-term capital appreciation.

Fund Strategy: The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in companies whose market capitalization (number of shares outstanding multiplied by share price), at the time of purchase, falls within the range of the companies in either the S&P MidCap 400 Index or the Russell Midcap Value Index.

Fund Risk: Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/28/2015. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/28/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
- S&P MidCap 400 Index is a market capitalization-weighted index of 400 mid cap stocks of U.S. companies chosen for market size, liquidity, and industry group representation.
- The Russell Midcap Value Index is an unmanaged market capitalization-weighted index of medium-capitalization value-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Value-oriented stocks tend to have lower price-to-book ratios and lower forecasted growth values.

T. Rowe Price Stable Value Common Trust Fund B

VRS Code: 891478

Fund Objective: The Fund seeks to provide maximum current income while maintaining stability of principal.

Fund Strategy: The Fund invests primarily in a portfolio of Guaranteed Investment Contracts (GICs), Bank Investment Contracts (BICs), Synthetic Investment Contracts (SICs), and Separate Account Contracts (SACs). GICs, BICs, SICs, and SACs are types of investment contracts designed to potentially provide principal stability and a competitive yield. While the Trust purchases high-quality GICs, BICs, SICs, and SACs, there is no assurance that the credit quality of the issuers will remain the same over the life of the investment. Because such investments are not actively traded in the open market and generally must be held until maturity, there is a risk that, like any investment, one or more of the Trust's holding could fail to make scheduled interest and principal payments prior to maturity, potentially reducing the Trust's income level and causing a loss of principal. The Trust attempts to minimize such risks by diversifying its investments by issuer, quality, and duration. Unit price, yield and return may vary.

Fund Risk: The Contracts and securities purchased for the fund are backed solely by the financial resources of the issuers of such Contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The Contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund's securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the Contracts. However, while the fund seeks to preserve your principal investment, it is possible to lose money by investing in this fund. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Fund short term trading fees: None

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide stability of price.

Footnotes:

- The investment option is a stable value fund. It is managed by T. Rowe Price. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.

Vanguard Inflation-Protected Securities Fund Admiral Shares

VRS Code: 849268

Fund Objective: The investment seeks to provide inflation protection and income consistent with investment in inflation-indexed securities.

Fund Strategy: The fund invests at least 80% of its assets in inflation-indexed bonds issued by the U.S. government, its agencies and instrumentalities, and corporations. It may invest in bonds of any maturity; however, its dollar-weighted average maturity is expected to be in the range of 7 to 20 years. At a minimum, all bonds purchased by the fund will be rated investment-grade or, if unrated, will be considered by the advisor to be investment-grade.

Fund Risk: The interest payments of TIPS are variable, they generally rise with inflation and fall with deflation. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends and who can tolerate more frequent changes in the size of dividend distributions than those usually found with more conservative bond funds.
- Someone who is seeking to supplement his or her core fixed-income holdings with a bond investment that is tied to changes in inflation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - Weighted average maturity (WAM) is the weighted average of all the maturities of the securities held in a fund. WAM for money market funds can be used as a measure of sensitivity to interest rate changes. Generally, the longer the maturity, the greater the sensitivity. WAM for money market funds is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening devices, such as demand features and interest rate resets. For bond funds, WAM can be used as a measure of sensitivity to the markets. Generally, the longer the maturity, the greater the sensitivity. The WAM calculation for bond funds excludes interest rate resets and only takes into account issuer call options if it is probable that the issuer of the instrument will take advantage of such options.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 06/10/2005. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/29/2000, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Vanguard Institutional Index Fund Institutional Shares**VRS Code:** 893556**Fund Objective:** The investment seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks.**Fund Strategy:** The fund employs an indexing investment approach designed to track the performance of the S&P 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.**Fund Risk:** Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
-

Vanguard Mid-Cap Index Fund Admiral Shares**VRS Code:** 845374**Fund Objective:** The investment seeks to track the performance of a benchmark index that measures the investment return of mid-capitalization stocks.**Fund Strategy:** The fund employs an indexing investment approach designed to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of mid-size U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The CRSP US Mid Cap Index targets inclusion of the U.S. companies that fall between the top 70%-85% of investable market capitalization.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/12/2001. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 05/21/1998, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Small-Cap Index Fund Admiral Shares

VRS Code: 844553

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of small-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The CRSP US Small Cap Index includes U.S. companies that fall between the bottom 2%-15% of the investable market capitalization. There is no lower limit in market capitalization, other than what is specified by investability screens.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/13/2000. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 10/03/1960, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Total Bond Market Index Fund Institutional Shares

VRS Code: 844511

Fund Objective: The investment seeks the performance of Bloomberg Barclays U.S. Aggregate Float Adjusted Index.

Fund Strategy: Bloomberg Barclays U.S. Aggregate Float Adjusted Index measures the performance of a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year. All of its investments will be selected through the sampling process, and at least 80% of its assets will be invested in bonds held in the index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The Bloomberg Barclays U.S. Aggregate Float Adjusted Index measures the total universe of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 09/18/1995. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/11/1986, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Vanguard Total International Stock Index Fund Institutional Shares

VRS Code: 877800

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in developed and emerging markets, excluding the United States.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the FTSE Global All Cap ex US Index, a float-adjusted market-capitalization-weighted index designed to measure equity market performance of companies located in developed and emerging markets, excluding the United States. It invests all, or substantially all, of its assets in the common stocks included in its target index.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The FTSE Global All Cap ex US Index is part of a range of indices designed to help US investors benchmark their international investments. The index comprises large, mid and small cap stocks globally excluding the US.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/29/2010. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 04/29/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Treasury Money Market Fund Investor Shares**VRS Code:** 846812**Fund Objective:** The investment seeks to provide current income while maintaining liquidity and a stable share price of \$1.**Fund Strategy:** The fund invests solely in high-quality, short-term money market instruments whose interest and principal payments are backed by the full faith and credit of the U.S. government. At least 80% of the fund's assets will be invested in U.S. Treasury securities; the remainder of the assets may be invested in securities issued by U.S. governmental agencies. The fund maintains a dollar-weighted average maturity of 60 days or less and a dollar-weighted average life of 120 days or less.**Fund Risk:** *You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to money market funds and you should not expect that the sponsor will provide financial support to the fund at any time. Additional risk information for this product may be found in the prospectus or other product materials, if available.***Fund short term trading fees:** None**Who may want to invest:**

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- **Weighted Average Maturity (WAM)** This is a weighted average of all the maturities of the securities held in a fund. WAM can be used as a measure of sensitivity to interest rate changes and markets changes. Generally, the longer the maturity, the greater the sensitivity to such changes. WAM is based on the dollar-weighted average length of time until principal payments must be paid. Depending on the types of securities held in a fund, certain maturity shortening devices (e.g., demand features, interest rate resets, and call options) may be taken into account when calculating the WAM.
- **Weighted Average Life (WAL)** For money market funds, this is the weighted average of the life of the securities held in a fund or portfolio and can be used as a measure of sensitivity to changes in liquidity and/or credit risk. Generally, the higher the value, the greater the sensitivity. WAL is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening features other than interest rate resets. For money market funds, the difference between WAM and WAL is that WAM takes into account interest rate resets and WAL does not. WAL for money market funds is not the same as WAL of a mortgage- or asset-backed security.

Wells Fargo Precious Metals Fund - Class Inst**VRS Code:** 877639**Fund Objective:** The investment seeks long-term capital appreciation.**Fund Strategy:** The fund normally invests at least 80% of the fund's net assets in investments related to precious metals. It invests any amount of the fund's total assets in equity securities of foreign issuers, including ADRs and similar investments. The fund invests up to 40% of its total assets in emerging market equity securities; and up to 25% of its total assets, at the time of purchase, in debt securities linked to precious metals and common or preferred stocks of subsidiaries of the fund that invest directly or indirectly in precious metals and minerals. It is non-diversified.

Fund Risk: The gold industry can be significantly affected by international monetary and political developments such as currency devaluations or revaluations, central bank movements, economic and social conditions within a country, trade imbalances, or trade or currency restrictions between countries. Fluctuations in the price of gold and precious metals can dramatically affect the profitability of companies in the gold and precious metals sector and can directly affect the value of the securities issued by such companies. Sector funds can be more volatile because of their narrow concentration in a specific industry. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is willing to accept the potentially lower diversification and higher risks associated with investing in a particular industry or sector.
- Someone who is seeking to complement his or her core holdings with investments concentrated in a particular sector or industry.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 02/29/2000. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 01/20/1998, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Step up your contributions with the Annual Increase Program.

Help boost your contribution amount automatically: The Annual Increase Program allows you to increase your retirement savings plan contributions automatically each year. It's an easy way to help keep yourself on track as you get closer to retirement.

ACTION PLAN

- Review the details of the Annual Increase Program
- Choose the amount and date of your annual increase

How does the Annual Increase Program work?

Choose the amount and date for your annual increase, and the rest is automatic. Each year on the designated date, your contributions will increase by the amount you elected.

How does the Annual Increase Program benefit me?

Small increases in your contributions can lead to significant benefits in retirement. When you enroll in the Annual Increase Program, you may help ensure a step up in your retirement plan account contributions each year. This means more opportunity for your savings to grow. It can help you save more but feel less of an impact in your take-home pay.

How do I enroll?

To make your plan's Annual Increase Program part of your retirement saving strategy, log on to NetBenefits® or call your plan's toll-free number to choose the amount and select the date for your annual increase.

What amount and date should I choose for my annual increase?

Choose an annual increase of 1% or 2% and time it to coincide with your annual review or pay increase. The system follows through by automatically increasing your contribution on your selected date each year.

What if I need to make changes or withdraw?

You can change or withdraw from the program at any time by calling your plan's toll-free number or by visiting NetBenefits.®

Additional information about the Annual Increase Program

Eligibility requirements.

To participate in the program, you must be contributing regularly to your workplace savings plan through payroll deductions. If you stop making regular payroll deductions, your annual increase elections will be maintained on the system until conditions change to allow for the application of your elections.

After I sign up, when does the increased contribution go into effect?

Your Annual Increase Program elections will take effect as soon as administratively feasible. Therefore, depending on the frequency of your paycheck, it takes a minimum of one to two pay periods for the election to take effect.

Program elections.

In most circumstances, your increase election will be applied on a pretax basis. If your employer allows Roth deductions, in limited circumstances your election may be applied on a Roth basis.

Exceptions to program elections.

Your Annual Increase Program elections will be applied until you withdraw from the program, subject to the following exceptions:

- **Plan or statutory limits.** If you are close to or over the maximum percentage or dollar amount that you are allowed to contribute to your retirement plan, none or only some of your increase amount will be applied on your designated increase date. However, if you have made a "spillover" election to continue contributions on an after-tax basis, your annual increase election may be applied for the remainder of the plan year.

- **Suspension of plan contributions.** If you are suspended from making contributions to your plan due to certain plan rules, your program increase will also be suspended. Depending on plan rules, your election may or may not be reinstated at the end of the suspension period.
- **Highly compensated employees (HCEs).** If your designation as an HCE limits or otherwise restricts you from making additional contributions, your contributions may not be increased even if you have elected to participate in the program.
- **Change in employment status.** If your deductions are interrupted due to a change in your employment status such as a leave of absence or disability, your program elections will be held on file. It's a good idea to confirm that you are still enrolled in the program when your deductions begin again.

Please consult your plan rules for more detailed information. If you have questions, please call your plan's toll-free number or log on to NetBenefits.®

Plan Name: The Mercury 401(k) Plan

Plan #: 38219

Incoming Rollover Instructions

"Rolling over" money into the Mercury 401(k) Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Rollover Contribution Form for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. There are two distribution check payable options:

Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.)

Note: This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 ½.

Option 2.

If the distribution was originally made payable directly to you,

you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over. (Personal checks are not acceptable.)

Note: If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA.

The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to NetBenefits® at www.netbenefits.com to initiate your request or complete the Incoming Rollover Contribution Form. Please be sure to complete all items and sign the form if indicated.

Failing to properly complete the process will result in your transaction not being processed and your check being returned to you. This form and any separate documentation required by your Plan Sponsor will be reviewed through an automated process. Fidelity will not consider or act upon any unrequested documentation or any information provided outside the areas of the form where specific information has been requested.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not made investment elections for rollover contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so via NetBenefits or by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous plan sponsor or IRA custodian for verification. An incorrect plan type could invalidate your rollover.

If you are currently enrolled in the Fidelity® Personalized Planning & Advice, an advisory service, your rollover contribution will automatically be invested according to your current model portfolio percentages.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments
Client Service Operations
P.O. Box 770003
Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway
Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Mercury 401(k) Plan, you can log on to Fidelity NetBenefits® at www.netbenefits.com to view your rollover contribution and investment election(s).

Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5095**. Please be sure you have beneficiary information for the Plan on file.

To establish or change your beneficiary information for the Mercury 401(k) Plan, please access www.netbenefits.com.

You should make a copy of the check and the Incoming Contribution Application for your records.

Plan Name: The Mercury 401(k) Plan

Plan #: 38219

Incoming Rollover Contribution Application

Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up.

Social Security #: -- Hire Date: ____/____/____ Birth Date: ____/____/____

Participant Name (first, MI, last): _____

Participant Address: _____

City: _____ State: _____ ZIP: _____

Phone (day): _____ Phone (evening): _____

Section Two: Rollover Contribution Information

Acceptable rollover sources

The Mercury 401(k) Plan will accept rollovers of eligible distributions you receive as a participant from the following types of plans: qualified plans (including 401(k) plans); Roth 401(k) accounts; 403(b) plans of tax-exempt organizations; Roth 403(b) accounts; governmental 457(b) plans; and Roth 457(b) accounts. The Plan will also accept rollovers of eligible distributions you may receive as a spousal beneficiary or a participant in one of these plans. The Plan does not accept rollovers of non-taxable amounts from employer-sponsored plans other than the Roth accounts listed above. Additionally, the plan will accept rollovers of taxable amounts from conduit ("rollover") IRAs and traditional IRAs, including eligible distributions from SEP-IRAs and SIMPLE IRAs.

028920001

Please provide the following information concerning the origin of this rollover: Plan name: _____

401(k) Plan

Governmental 457(b) Plan

Conduit IRA (rollover IRA)

401(a) Plan

Roth 401(a)/401(k) Plan

Nonconduit IRA

403(b) Plan

Roth 403(b) Plan

Unacceptable rollover funds

The Mercury 401(k) Plan cannot accept money from the following sources: rollovers from beneficiaries (other than from a spouse), payments over a life expectancy or a period of 10 or more years, or mandatory age-70 1/2 distributions. Also, unacceptable are: hardship distributions; distributions to a beneficiary (other than a spousal beneficiary); Roth IRAs; Coverdell Education IRAs; and retirement plans of foreign countries. In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over. After-tax contributions from plans other than 401(a) or 403(a) plans may not be rolled over into this Plan.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

To make an investment election or to request a fund prospectus please log on to www.netbenefits.com.

If you are currently enrolled in the Fidelity® Personalized Planning & Advice, an advisory service, your rollover contribution will automatically be invested according to your current model portfolio percentages.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested according to the investment election on file at Fidelity. I also acknowledge that if I do not already have investment elections on file at Fidelity, my rollover contribution will be invested in my plan's default investment option.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Mercury 401(k) Plan.
